

# Final Problem Set - 11

## Introduction

Congratulations, on completing the course, now you will build your own projects by yourself, so for dataset you can go to the kaggle datasets or UIC ML Repo.

You can take the ideas from [here](#).

You are free to choose any project, implement everything you have learned.

## Submission Guidelines:-

You have to submit it through our official discord server and forms are provided on the course website to submit your problem set and you can discuss your answers in the discord community.
